TO WHOM IT MAY CONCERN:

Re: CARE PLUMBING, INC., & John and Mike Ovsepyan

This will advise that I have used the services of John and Mike Ovsepyan and their plumbing contracting company, Care Plumbing, Inc., for several different plumbing projects.

In all instances, I was 100% satisfied and pleased with their work efforts, the quality of the materials they installed, their punctuality in meeting appointments, and their rapid and steady work during all projects undertaken. They work extremely well together, one in support of the other, with little or no unrelated conversation or distractions. In short, they are all work, and the results show the effects of their strong work ethic.

I am happy to recommend John and Mike Ovsepyan and Care Plumbing, Inc. without equivocation for any and all plumbing needs, from repairs, to total copper re-pipe projects and installation of new water and gas lines, both for commercial and residential properties, and more. Their pricing is reasonable and they stand by their work in all instances.

They have my 100% loyalty and support.

Respectfully,

DAVID S. AIKENHEAD
